

Software Engineer – Farmvet Systems

Following our recent worldwide alliance with Vetoquinol, Farmvet Systems Ltd is now going global, with a strong global partner. We are currently recruiting a Software Engineer to join our team. The successful candidate will have a strong programming background and will be responsible for the implementation and support of new and existing software solutions for our clients in the veterinary and animal health sector.

Reporting to our Product Development Manager and working in close collaboration with our IT Department, your missions / main responsibilities will be:

- Responsible for the development and support of new and existing web and mobile applications
- Coordinating with the Product Development Manager, team members and other stakeholders (including clients) to meet business objectives
- Having technical discussions and providing technical expertise to a collaborative team designing and developing web based applications
- Identifying problems uncovered by customer feedback and testing, and correct or refer problems to appropriate personnel for correction
- Evaluating code at both a personal and team level, to ensure it meets industry standards, is valid and is compatible with browsers, devices, or operating systems

The successful candidate will have experience and knowledge of the following technologies:

- C# (and/or Java) programming experience
- JavaScript programming experience
- ASP.Net MVC (with C#)
- HTML, CSS, JavaScript, JQuery/AJAX
- SQL Server / MySQL
- Web service (or WebAPI) development and deployment
- Native and/or hybrid mobile applications
- Source Control (SVN/Git)
- Experience working in an Agile environment with continuous integration and deployment
- Release and deployment management
- Working knowledge of web servers and web application servers
- Working knowledge of test plans and processes

If you can apply yourself with creativity and intellectual rigour, have exceptional hands-on problem solving skills and can adapt rapidly to changing circumstances, you'll find there are significant opportunities to progress.

On offer is a salary of £28,000 - £35,000 per annum depending on experience + benefits, working as part of a small team based near Cookstown / Magherafelt. Flexible working and some working from home is also offered.

To apply for this role please send an up-to-date CV to the following email: jobs@farmvetsystems.com (Please use the Subject header: "Application for C# Developer role")
